## Important Information for Martin's Point US Family Health Plan Members

February 19, 2025

Dear Member first Name:

It is our goal at the Martin's Point US Family Health Plan to keep you informed of changes to your pharmacy benefit. You are receiving this letter because **there is going to be an upcoming change to the coverage of CALQUENCE TAB 100MG.**

In order to align with the intention of the Department of Defense formulary, **effective March 21, 2025, the US Family Health Plan will limit the quantity and days' supply for all prescriptions of CALQUENCE TAB 100MG. The new limits are 120 tablets per 30 days at a local retail pharmacy and 180 tablets per 45 days at the Martin's Point Mail Order Pharmacy.** Our records show that you may have received a larger days' supply than what will be allowed under this new limit.

If you have been receiving quantities that are below the new limit or are no longer taking this medication, no action is needed. This notice is simply to inform you of the new limits going into effect.

***If you have other primary prescription coverage, please contact your other insurer for their preferred product information.***

If you have specific questions about your pharmacy benefit, please contact Member Services at 1-888-674-8734.

Sincerely,

Pharmacy Services Department  
Martin's Point Health Care
