Important Information Regarding Your ARCALYST INJ 220MG

November 4, 2026

Dear [Member Name]:

It is our goal at the Martin's Point US Family Health Plan to keep you informed of changes to your pharmacy benefit. You are receiving this letter because **one of the medications that you have taken, and may currently be taking, will have a copay change. Additionally, the US Family Health Plan will require the use of the Martin's Point mail-order pharmacy for ARCALYST INJ 220MG.** The next time you try to fill your prescription at a local retail pharmacy, you may receive a message at the pharmacy that your medication cannot be filled.

Effective 12/04/2026, ARCALYST INJ 220MG will change to a Tier 3 medication. **This means that the copay will change to $44 for a 90-day supply through Martin's Point mail-order pharmacy and to $48 for a 30-day supply through a local pharmacy.**

The Department of Defense Pharmaceutical and Therapeutics (P&T) Committee expanded a requirement for maintenance medications to be filled through mail order—the Maintenance Medication Program—on October 1, 2015. The US Family Health Plan follows the recommendations of the P&T Committee. Drugs for the expanded Maintenance Medication Program, must meet the following requirements:

- The medication is prescribed for a chronic, long-term condition and is taken on a regular, recurring basis
- It is clinically appropriate and cost-effective to dispense the medication and its refills from the Martin's Point Mail-Order Pharmacy
- The medication is available for an initial filling of a 30-day-or-less supply through retail pharmacies

To avoid delays in receiving your next prescription for ARCALYST INJ 220MG, please call Member Services at 1-888-674-8734 or have your health care provider send a new

prescription to the Martin's Point Mail-Order Pharmacy. If you have discontinued use of this medication, you may disregard this notice.

Please be aware, having other primary prescription coverage does not automatically exclude participation in this mandatory program.

If you have specific questions about your pharmacy benefit, please contact Member Services at 1-888-674-8734.

Sincerely,

Pharmacy Administration Department
Martin's Point Health Care
